PROBUS CLUB OF BENDIGO INC.

President : Jim Aitken

Phone : 41 1461

Secretary : Bob Chenery

Phone : 42 4546

A Special General Meeting is held every 3rd Wednesday each month at 10.00 a.m. at the Masonic Centre, McIvor Road.

All correspondence to the Secretary, 49 Emmett Street, Golden Square, 3555.

GUEST SPEAKER The Speaker at today's meeting is Mr Bruce Reid, M.H.R. Federal Member for Bendigo who we expected earlier in the year. His subject - Australia, the way forward.

Alf Grierson made the introductory speech at the January Meeting. The Guest Speaker, Michael McCartney, took as the title of his talk 'Investing for Pleasure and Profit'.

Michael has qualifications as a solicitor and accountant, but now operates in the area of stock and share broking and financial planning.

Bendigo used to have a very active Stock Exchange above Allen's Walk, but it is not really operative now, all the trading is done through firms in Melbourne.

There are three forms of investment, cash, in the form of bank deposits and so on; property in all its forms; and stocks and shares. Cash is the most affected by inflation, property prices keep up with inflation and so do shares. In general shares out perform property which in turn outperforms cash.

Nowadays everyone is perplexed, people don't know where to put their money. The text book classic answer to this is to spread investment across the three forms, cash, property and shares.

The thanks of the meeting was expressed by Ted Jenkins, who made the usual presentation.

Our March meeting will be the 10th birthday of our club, and we hope to celebrate this in a quiet dignified way in keeping with the venerable age of our club. Watch this space - and delay your departure for the North until after the celebration.

C. Weeks
P. Goodrich
H. Hesse (Skipper)

L. Nankivell
R. Chenery
A. Court
V. Canobie (Skipper)

Problem

You know those terrible arithmetic problems about how many peaches some people buy, and so forth? Well, here's one we like, made up by a third-grader who was asked to think up a problem similar to the ones in his book: "My father is forty-four years old. My dog is eight. If my dog was a human being, he would be fifty-six years old. How old would my father be if he was a dog? How old would my father plus my dog be if they were both human beings?"

For All Practical Purposes

A PROFESSOR, asked what he meant by the phrase ["for all practical purposes"] explained:

"Suppose all the young men in this class were to line up on one side of the room, and all the young ladies on the other. At a given signal, the two lines move toward each other, halving the distance between them. At a second signal, they move forward again, halving the remaining distance; and so on at each succeeding signal. Theoretically, the boys would never reach the girls; but actually, after a relatively small number of moves, they would be close enough for all practical purposes."
