DR. WESLEY BLACKMORE, who will be our Guest Speaker at today's meeting, has had a great diversity of interesting experiences in the field of education. While his academic career and professional qualifications are relevant to the Melbourne University, he has lectured in the U.S.A., United Kingdom, Japan, and for two years, 1982 and 1983, in the Peoples Republic of China. Together with this, Wes Blackmore is also the author of thirteen books. Following his retirement he was again called to China in 1988 where he remained for a period of three years before returning to Australia and taking up residence in Bendigo recently. Wes will relate some of his impressions of China today in his talk entitled "Communism - Capitalism and Courage in Contemporary China".

The Speaker at the May Meeting was the Chief Executive Officer of Strathfieldsaye Shire, MR. BARRY EDWARDS. After CYRIL MICHELSEN's introduction, Barry proceeded to give a few answers to the question - "Did You Know?" Municipal government is the third tier, below the Federal and State governments and hence is closer to the people. The two higher tiers tend to forget local government. One third of Strathfieldsaye Shire is State Forest, and consequently yields no income in the form of rates. The Shire's yearly budget was \$10 million, of which \$1.6 million was payroll. The remaining moneys were devoted to many activities; fire hazard eradication \$35,000, Home Help \$250,000, Meals On Wheels, garbage collection, and so on. Garbage disposal is a problem in the Bendigo area as it is everywhere. The use of the Eaglehawk tip, the last remaining in the area, costs \$120,000. When this tip is no longer

usable, the next tip will be 20 kms outside city limits, and planning permission for it has spread over 8 years. The electric power for street lighting costs the Shire \$88,000 a year, paid to S.E.C. The total Rating income at present is \$5.5 million, from the lowest rates in the Bendigo area. In the 1970's and 1980's, under the Whitlam and Fraser governments, Government grants were good; but the present Federal and State Governments believe that local governments have been treated too well. Over the last 20 years the population of Strathfieldsaye has increased 500%. In local government council elections candidates have no affiliation to the political parties, and it is to be hoped they never will. Shire Council meets every 3 weeks, and there is an agenda running to 100 pages for each; being a Councillor takes much time and commitment on the part of the incumbent. The Council sets policy and the professional staff implements it. A 5 year plan for capital was worked out aiming at the Shire being debt free in 1993. The debt free state has already been achieved, and a Capital Works Reserve is being built up. Council sent out a Questionnaire to rate payers which produced a good response. Environment protection was the main point of concern in the responses. Amalgamation with other local authorities is not popular. Mr. Edwards ended his talk by quoting Abraham Lincoln's; "Eight Cannots" he may have given them over 100 years ago, but they are still very relevant.

- ... You cannot bring about prosperity by discouraging thrift.
- ... You cannot strengthen the weak by weakening the strong.
- ... You cannot help small men by tearing down big men.
- ... You cannot lift the wage earner by pulling down the wage payer.
- ... You cannot keep out of trouble by spending more than your income.
- ... You cannot further brotherhood by inciting class hatred.
- ... You cannot build character and courage by taking away a man's initiative.
- ... You cannot help men by having the government tax them to do for them what they should do for themselves.
