Subject A For Eyesight**

John Higgs a Director from the Bendigo Art Gallery was the guest speaker at the April meeting and was introduced to the members by President Ern Holland. John spoke about how the Gallery had grown since it's beginning in July 1887 at the school of mines, moving to View Street in 1890. The most significant change was amalgamation with the City Of Bendigo Council. Forward planning of exhibitions was most important, E.G. The Golden Age of Couture was two years in negotiations, and attracted about 80,000 visitors also a lot of money into our economy, another large draw card was the Archibald Exhibition which attracted 40,000 visitors in one month, the latest Archibald Exhibition will be in Bendigo Art Gallery in the coming months. John concluded by saying the Art Gallery has 1,400 members, plus volunteers and any new members would be most welcome. After answering many questions from members, Bryan Clemson thanked John and made the usual presentation.

**WE NEED NEW MEMBERS AND WE NEED
YOUR HELP TO FIND THEM.**

The previous holders of these positions will gladly assist anyone who takes on the roles. If our Probus club cannot elect a full committee “HOW CAN WE EXPECT TO ATTRACT NEW MEMBERS”)

IMPONDERABLES – ponder on these imponderables for a minute:

1. If you take an Oriental person and spin him around several times, does he become disoriented?
2. If people from Poland are called Poles, why aren't people from Holland called Holes?
3. If 4 out of 5 people SUFFER from an illness, does that mean that 1 out of the 5, actually enjoys it?
4. If a pig loses its voice, is it disgruntled?
5. Isn't having a “smoking section” in a restaurant, like having a “weeing section” in a swimming pool?
6. Why is the man who invests all your money called a broker?
7. When cheese gets its picture taken, what does it say?
8. Why then is a person who plays the piano called a pianist but a person who drives a racing car not called a racist?
9. Why are a wise man and a wise guy opposites?
10. If 21 is pronounced twenty one, and 31 is pronounced thirty one and so on, why isn't the number 11, pronounced onety one?
